

Community Outings and Activities

This issue presents highlights from our community outings/activities the Mentor Campus participated in this month. Our students attended many community outings including the Captain's Game and Fishing at Veterans Park. We enjoyed singing the national anthem once again at the Captain's Game and appreciate the assistance from the Lake Metroparks when fishing. Our last day of school is May 31st. Thank you for another great school year. We hope you all have an enjoyable summer!

Room 1 loved doing STEM projects in Science this month. We also enjoyed the Captain's game and fishing at Lake Metroparks.
